

PSUR – worksharing project

Written by Administrator - Last Updated Friday, 11 May 2018 13:19

It is the project of Heads of veterinary medicine agencies (HMA vet) which was initiated on 27 April 2007 by establishing subgroup for PSUR synchronisation. The group consist of members of competent authorities and pharmaceutical industry and is responsible for elaboration of proposals for harmonised "Birth dates" (common date of first authorisation within EU), "Data lock points" and dates for PSUR submissions within EU. The further details about the project and harmonised "Data lock point" (DLP) are published in this section.
